🐙 github.com/VinciprovaR

I am a developer with experience in both back-end and front-end, having worked as a full-stack developer on various projects. Currently, I want to focus exclusively on front-end development, where I can best express my creativity and technical skills.

I developed a web app as a showcase of my front-end skillset, which allows users to search for movies and TV shows and add them to custom bookmarks.

EDUCATION

High School Diploma Accountant/ Programmer

ITC Leonardo Da Vinci
Rome (2002-2007)

LANGUAGES

- Italian (Native)
- English (B2)

SKILLS

- Javascript
- Typescript
- Angular (up to v18)
- HTML5
- CSS3

PROJECTS

Movie & TV Bookmark

Rome (06/2024 - Presente)

Demo: movie-tv-bookmark.netlify.app

- During a work break for family reasons, I developed a web app for searching movies and TV shows with bookmarks, now part of my portfolio. This project allowed me to enhance my front-end development skills.
- Tech stack: Angular 17, NgRx state management, RxJs, Tailwind CSS, Supabase server for authentication with JWT and CRUD operations, TMDB API, Netlify for deploy.
- Repository Github: github.com/VinciprovaR/movie-tv-bookmark

EXPERIENCES

Global Sistemi

Rome (02/2023 - 06/2024)

Web Developer Full-stack

- As a consultant for Engineering, I worked on developing new feature and maintaining a public administration web portal for the Emilia-Romagna region, worked full remote, collaborating with a team leader and QA.
- Tech stack: Angular 14, Javascript, TypeScript, HTML, CSS, Java 1.8, Spring Boot, PostgreSQL.

- Responsive design
- Tailwind CSS
- NgRx state manager
- RxJs
- Angular Material
- Visual Studio Code
- Supabase
- Netlify
- ChatGPT
- SonarCloud
- Cypress E2E
- Github
- Java
- Eclipse
- Maven
- SpringBoot
- SQL

HOBBIES

- Cinema
- Fitness
- Gaming
- Journaling
- Hiking
- Philosophy

Sabbatical

Australia (07/2022 - 02/2023)

Work-travel in Australia

- During a work break, I **traveled to Australia** and did seasonal jobs. This experience helped me improve my English and enrich my personal and professional skills.

Software Partner Italia

Verona (02/2020 - 07/2022)

Web Developer Full-stack

- As a consultant for **Reply Technology** in **Unicredit Austria (banking)**, I developed and fixed bugs remotely. I collaborated with the Unicredit team using agile methods and communicated in English with QA.
- Tech stack: **Angular 2+, Javascript, TypeScript, Java 1.8, Spring Boot, Hibernate, Maven, DB2.**

Atomtech

Verona (04/2018 - 02/2020)

Web Developer Front-end

- As a consultant for **Generali Assicurazioni**, I focused on the **architectural porting of an insurance portal**, transforming it from AngularJS to Angular 5, as part of a team of about five developers.
- Tech stack: Angular 5, Javascript, TypeScript, HTML, SCSS, Ionic
- As a consultant for **Accenture**, development of new features and bug-fixing for the **Intesa SanPaolo banking portal**. On-site open-space mode, with a team of ten people, including developers, team leaders and reference managers.
- Stack tecnologico: **Angular 5, Javascript, TypeScript, HTML, CSS.**

Almaviva

Rome (03/2017 - 04/2018)

Web Developer Full-stack

- Hired internally, I developed new features and fixed bugs for the **Intesa SanPaolo banking portal**. This was my first experience in web development, after completing a training course. After being hired, I completed a preparatory course of about two months before being fully integrated into the team.
- Tech stack: **Angular JS, Javascript, TypeScript, HTML, CSS, Java 1.8, Spring Boot, DB2.**

Altro

(2009 - 2017)

Experiences in different sectors

- Before becoming a web developer, I worked in various fields unrelated to programming. In 2016, after a period in London, I decided to focus on learning programming.
